He has worked in the world of language teaching for many years as a teacher, as an author, as a storyteller and story maker and as a teacher trainer. He has published many books:

*Five Minute Activities* (with Penny Ur)

*Pictures for Language Learning*

*Games for Language Learning* (with David Betteridge and Michael Buckby)

*Storytelling with Children*

### 演題

## Written and oral storytelling

Literature and literary studies have a long and distinguished history and both have been accorded high status in civilised societies. Oral storytelling has an undoubtedly longer history than written storytelling and its effect has had and still has far reaching consequences within the individual and within society. I will discuss what can be done with: spoken words, voice, body, costume, pictures, music and props, lighting, seating and location...the craft of oral storytelling.
