

From CLIL to LESD: Preparing Language Students for an Era of Climate Change, AI, and Misinformation

Climate change, artificial intelligence, and misinformation are reshaping the role of language education. Building on the foundations of Content and Language Integrated Learning (CLIL), this presentation introduces **Language Education for Sustainable Development (LESD)**, an approach that promotes critical thinking, global citizenship, and communicative agency. Through research and classroom examples, participants will explore how language education can help learners engage with complex global challenges and contribute to more sustainable futures.

日時

2026年

8月1日(土) 16:30～18:00 (開場16:15)

講師

Dr. Joshua J. Jodoin

Joshua J. Jodoin (Dr. J) is an Associate Professor in the Hirao School of Management at Konan University. His research focuses on Language Education for Sustainable Development (LESD), critical thinking, global citizenship, and environmental education. He teaches courses in environmental policy, sustainability, and Model United Nations and is currently completing his forthcoming book, *Language Education for Sustainable Development*, which explores the role of language education in addressing the challenges of climate change, artificial intelligence, and misinformation.
